

A decorative graphic on the left side of the slide consisting of two overlapping parallelograms. The front one is blue and the back one is a light green. They are positioned diagonally, with the blue one partially covering the green one.

SCENESCOUT

Prototype Demo

Bridger Hansen, Yash Patel
Team 09

User Functions

The audience/customer can find shows via the map by venue or through their feed. They will be able to use a search to filter local posts as well. This is meant to be an alternative to bigger applications that include shows of all sizes. It will allow for free self promotion to small show lovers.

User Functions Continued

Users will be able to bookmark and save shows to their “my shows” page to reference later. They will also be able to get show details, ticket medium/prices, and more info from each post in their feed.

Users can edit their profile picture, description, bio, and favorite bands.

Band Functions

Bands will be able to post their own shows with an image, date, time, venue location, band lineup, age restrictions, etc.

Small and local bands will be able to self promote to local users.

Band Functions Continued

Bands will be able to find available venues - smaller basement/garage band venues especially.

Bands will be able to edit their profile with genre, home city, tour/show dates, description, merch and media links.

Bands will be able to view audience statistics and see who saved their show.
